"Weatherproof Paint"

Quick changes in weather and temperature are a severe test for any paint, but Hanna's Green Seal will "hold up" every time. It's put together with this all-weather feature in view.

Hanna's Green Seal

has been time-tried and proven. Considering the space it covers and the wear it gives, there is no cheaper paint to be had.

It helps the appearance of both cottage and mansion.

Try it next time.

VALENTINE THEATER.

The announcement that Harry Lauder, famous Scotch comedian and singer, will give two performances at the Valentine theater, Toledo, Saturday March 25, insures brilliant audiences for the show.

Probably is the most popular entertainer now before the American public.

William Morris is sending the noted star at the head of a brilliant company of international vaudeville performers. It is the Scotchman's eighth annual tour of America and, as usual, he is "turning them away" wherever he plays.

In addition to the songs that have already made him famous and are still whistled throughout the world, Mr. Lauder will present an entirely new budget, greater number of which he wrote and composed himself. He introduces a number of new costumes and displays new character studies.

Mail order for the Lauder engagement will be received and filled now, for both the matinee and night performances.

A NON-PARTISAN

TARIFF COMMISSION

Whenever the people are to be lured into a trap the duties of non-partisanship are softly rung to the breeze.

The so-called non-partisan tariff commission demanded by President Wilson has nothing non-partisan about its name. It provides for a Commission of five members, not more than three of whom shall belong to the same political party.

The salaries of each shall be \$12,000, and no one engaged directly or indirectly in any business affected by the tariff shall become a member. This most effectually prevents any person of practical information serving on the Commission.

The members are to be appointed by the President for terms of two, four, six, eight and ten years. It shall have power to force individuals, firms or corporations of this country to show their books and divulge trade secrets to their competitors here and abroad. They cannot compel such information from our foreign competitors.

The commission shall have power to fix rates. Thus the President takes from the people, through their representatives in Congress, the power to fix rates and lodges it in a Commission appointed by himself and which will be responsive to himself. It is a scheme to prolong free trade conditions.

Those who have favored a non-partisan tariff Commission never dreamed that it should be given power to fix rates. That power was to be left to Congress while the Commission was to secure information for the use of Congress. The country will resent this effort on the part of the President to prolong free trade and hold industry in the palm of his hand. He himself saw that appropriations were withheld from the Tariff Commission, and he has been appointed to secure information to guide in the making of tariffs. His own Congress refused to avail itself of the information secured. And now that he has some political debts to pay and is determined to harass our country with free trade, he insists upon the creation of a Commission that will retain the law he has enacted.

Write your Senators and Representatives protesting against such an abuse of authority and demanding that the power to make rates rest with Congress alone.

DODGE BROS. CAR

WINS HILL CLIMB

Negotiates Steep Pinnacle at Montrose, Colo., With Nine Passengers.

At a recent hill-climbing contest at Montrose, Colo., a Dodge Brothers car performed a feat never before attempted on a hill near the town by climbing to the top with nine passengers weighing a total of 1750 pounds.

The contest was started for cars carrying their seating load and the Dodge Brothers car won easily. A seven-passenger car that had stalled requested permission to cut its load to five and it then was successful. But to demonstrate its superior power, the Dodge Brothers car was loaded with four men in addition to its first passengers and easily made the top.

The hill was but 200 feet long, but was 25.6 per cent, the steepest portion having a grade of 45.22 per cent, and the most level part a grade of only 7 per cent.

There were originally a number of cars scheduled to try the climb, but when starting time arrived only three would compete. 50-2

Changeable Weather Brings Sickness.

The changeable weather of March causes coughs, colds, croup and grippe. There is no such thing as a "light cold"—none that a person can safely neglect. Foley's Honey and Tar is a safe and reliable family medicine that heals inflamed, congested air passages, stops coughs and eases breathing. Fink & Haumesser.

I now have in my ware rooms four car loads of buggies for the spring trade. These are up to date in style and quality. Call and see me. I positively will not be undersold on the same class of vehicles. 49-16 CHAS. F. STOTZER.

For inflamed sore eyes apply Hanford's Balsam lightly to the closed lids. It should relieve in five minutes.

ADVERTISED LETTERS.

Wm. Oakley, Mr. Ephraim Pennington, Mr. Oliver Poorman care W. S. Markley, Mrs. Burt Van Warner.

EMIL WEBER, P. M.
